This is an archive of the Pi-node radio laboratory, which happened in Berlin from January 24 to February 2, during CTM Festival 2014.

Pi-node is a radio infrastructure, a multi-local-transceiver radio, with several nodes of transmission dispatched in the city (cf. Map). Each Pi-node box was both a local sound-transmitter and receiver through microphone and audio-files sharing device, when this was implemented. Pi-node is a radio contents : 240 hours of broadcasted sound were produced and are archived below (cf. Schedule). Pi-node was a work-in-progress where each action for the deployment of this radio-mesh network has been listed (cf. actions). Two performances have been carried out collectively: in West Germany (2/02) and in DR-Kultur (7/02) (cf. below for the archive of the performances).

Log

- ① Nipper (La voix de son maître):
Haut-parleur - pavillon, microphone
- ② Fourche du diable magnétique:
Cable en rectangle - cable bobiné
- ③ Solar LED:
LED - cellule panneau solaire
- ④ Ruban de Moebius UHF:
Télévisions - antennes râteau, modulateurs
- ⑤ Laser Malt:
Laser - cellule photo-sensible, boîte de whisky
- ⑥ Pierre de Mare:
Vibreux, pierre - micro contact
- ⑦ 88.0 MHz FM:
Émetteur FM - poste radio
- ⑧ Batphone:
Haut parleur - microphone
- ⑨ Minimodem:
Ordinateur, "minimodem", émetteur FM. Récepteur - poste radio, "minimodem", ordinateur
- ⑩ Soon Spring:
Enceinte vibratoire, ressort - micro contact
- ⑪ Ondulation:
Lumière, enceinte vibratoire, eau - cellule photosensible
- ⑫ Cubitainer:
Cuivre, vin.
